### GOLD ROAD MINE TO START WORK

(Continued From Page 1)  
pipe line, instead of carrying the raw ore to the mill below. It was estimated that this method would save a large amount of money yearly.

Goldroad, at one time, was one of the most important camps in the county. More than 300 men were employed in the mine, and it is expected that this number will soon be again at work in the great property. The camp is ideal. Water is pumped over the hill from Little Meadows for household uses and the mine is supplying sufficient for mill purposes. The town is situated just over the mountain, from Little Meadows and is only about two miles north of Oatman. Its mines were among the first important discoveries in that section, and have been large producers of gold and silver. The veins are large, and the shoots are longer than those of any mine in the district. Geologists who have made close examination of the property are of the impression that it is one of the longest lived gold mines in the world. The ore body extends from the old glory hole on the west to the Railroad claim on the east, approximately through four claim lengths. Great lenses have been found in this massive vein and these lenses should yield a large amount of gold when properly developed.

D. R. Muir, who will take charge of the mines under the new order of things, has been in this county many years as the representative of the parent company and has a world of friends here. Since the closing down of the mines he has been looking after the company affairs in the zinc fields of Kansas, Arkansas and Missouri, but he has always wanted to return to the mines at Goldroad. He made a success of the operation of this property and we are sure that he will again turn the trick. Mohave county welcomes Mr. Muir and his people to one of the great camps of the state.

**IT'S TOASTED**

### WORKING ON FERRY ROAD

The road from Chloride to the Searchlight Ferry is now about completed, the connection through the Bonelli pasture having been finished. Cattle guards are being put in and when this is done the road will be open to traffic. This road was held up until arrangements could be made to go through the pasture, but considerable travel was maintained over it, nevertheless.

A chance to win a \$125.00 set of Oneida Community Plate is certainly worth while especially as it costs nothing to try. Ask Mr. Sharpe at the Rexall Store about it. (Adv.)

### NOTICE

There will be an Old Fashioned Box Supper and Dance at the Hackberry School House, Saturday night, Dec. 2. Each lady will please bring a box.

### JOHNNY BELL GROUP JOINS FRISCO MINES ON SOUTH

Mike Coleman has been busily engaged in further development work on the Johnny Bell group of six claims which is an extension of the Frisco Mines Co., Inc., property on the south, in the Union Pass country. Considerable work in the way of tunnels, open cuts, and shafts has opened up some interesting ore on the Johnny Bell group, which will warrant further development of this promising property.

E. Ross Housholder, local engineer, has just completed a claim survey of this entire group and prepared maps of the same. Associates of Mr. Coleman who recently visited the property were well satisfied with the development which is to be continued.

### LOST THEIR BABIES

Two mothers and three children, accompanied by a nurse, became separated at Needles last evening, when the women went into the Harvey house to get refreshments. They were passengers on the "flyer." The train pulled out without the mothers and the two little ones had to be taken off the train and held at the Kingman depot to await the arrival of train No. 8. The babies were well cared for, but were unable to understand why their parent left them so suddenly. They continued their journey on the slower train.

Tanlac, that wonderful medicine, sold in Kingman by the Kingman Drug Co. (Adv.)

### PEPTONA WILL HELP YOU

PEPTONA, the best tonic we sell, gives you Extract of Cod Liver Oil, the blood enriching tonic effect of Iron and Manganese, and the nourishment of Malt.

KINGMAN DRUG CO.  
Kingman, Arizona

### A PROCLAMATION

Executive Department  
State of Arizona

The foundation of democracy is an enlightened citizenship. Without it, popular government falls into the hands of the demagogue, or succumbs to the selfish ambitions of autocracy. National education, on a basis which affords to each child equality of opportunity in preparation for the duties and responsibilities of life, is of such outstanding importance that we can well afford to devote to the promotion and furtherance of the cause of education that consideration which is to be given through observance of American Education Week.

Of special importance to us as citi-

zens of America are the problems of illiteracy, the proper Americanization of our alien population, and preparation of our boys and girls for citizenship. Statistics show that Arizona has a very high proportion of adult illiterates, a fact explained by our large Indian and alien population. Among the native-born American population the problem of illiteracy is much less acute, yet its eradication demands and should receive the attention of all our citizens. Americanization of those who have come to us from foreign lands or those of foreign extraction who have not been afforded the opportunity to fit themselves for citizenship will do much to inculcate the spirit of true patriotism, and will stimulate and quicken appreciation of the necessity for insuring equality of educational opportunity insofar as it may be possible.

There can be no progress educationally without appreciation by our people of the dignity of teaching, as a profession, and the enlistment of many of our brightest minds in the work of fitting future generations for their responsibilities. If our educational system is to succeed it must be able to attract men and women, who, although they should be fired by the high ideal of service, are worthy of their hire. If the disparity between their reward and that which they can obtain in the business world is too great, the primal law of self-preservation overbalances the idealism of service, and the citizenship of the future is left to those less able to prepare it for the battles of life.

In the light of these axiomatic facts it is particularly fitting that time and effort be devoted to the serious study of educational problems, looking toward their solution in the interest of our future citizenship.

NOW, THEREFORE, I, THOMAS E. CAMPBELL, Governor of the State of Arizona, in compliance with the request of the President of the United States, with which I heartily concur, do hereby set aside and designate the week of December 3 to 9, 1922, for special observance as American Education Week. And I do especially urge our citizens during the period named to give special and thoughtful attention to the problems of Americanization, illiteracy and Equality of Educational Opportunity, to the end that there may be a revival of interest in our public schools and a more general appreciation of the valuable contribution which the teacher makes to the welfare of the Republic.

IN WITNESS WHEREOF, I have hereunto set my hand and caused the Great Seal of the State to be affixed. Done at Phoenix, the capital, this 25th day of November, 1922. (Great Seal)

THOMAS E. CAMPBELL,  
Governor.

ATTEST:  
ERNEST R. HALL,  
Secretary of State.

### NOTICE

Pleting, hemstitching and button making will be accepted to be sent away until our button machine and stitching machine arrive.

Mesdames  
DAVIS & COLEMAN
